Fire Station 45 Project is Underway

The department Community and Economic Development (CED) has issued the permit for the new Fire Station 45 building on S. 200th Street that will replace the old station located immediately to the west of the new site. The new station will encompass over 7,500 square feet of area with four sleeping rooms, two long apparatus bays and the structural integrity to withstand earthquakes much better than the former. New to this project will be planted areas that will include a variety of edible landscape plants (fruit trees), something that has not been implemented before within the required landscaping areas that accompany most projects. Work began on the project on March 18 and is scheduled for completion in January of 2016.

Be the Match Bone Marrow Donor Drive

The SeaTac Police Department is partnering with the Des Moines and Normandy Park Police Departments to generate awareness on becoming a potential bone marrow donor by joining the Be the Match Registry. Every four minutes someone is diagnosed with a blood cancer. Last year, a rare form of leukemia struck the adolescent son of the Dean of College & Career Development at Highline's Puget Sound Skills Center. His hope for a cure is through a bone marrow transplant.

The Des Moines Police Department is hosting an event on Thursday, April 16 from 11:00 AM - 3:00 PM at their headquarters (21900 11th Avenue S., Des Moines) to attract potential donors from neighboring communities to the Be the Match bone marrow donor drive. There is no cost and the process is easy; a simple cheek swab is all that is required. Anyone between age 18 and 44 that is free of certain medical conditions may join.

Learn about route and station options for extending light rail from SeaTac to Federal Way

On April 14, 2015, from 4:00 PM – 6:30 PM, Sound Transit will have staff at an information table in the Council Chambers lobby of SeaTac City Hall to answer questions and accept comments about the Federal Way Link Extension. Sound Transit staff will make a presentation to the City Council during the Study Session which begins at 4:30 PM.

The Federal Way Link Extension project will extend light rail from the Angle Lake Station at S. 200th in SeaTac (opening in 2016) to Kent/Des Moines by 2023 and to Federal Way when more funding is secured.

Sound Transit recently conducted an environmental review of the project. On April 10, the [Draft Environmental Impact Statement](#) (Draft EIS) will be available for public review and comment. It provides information about route and station options on SR 99 and I-5 and how the project could benefit and impact the community and environment. Public comments will help the Board of Directors identify a preferred alternative this summer.
