## Ecology Offers Regional Stormwater Grants to SeaTac and its Grant Partners

The City is excited to announce that two competitive stormwater grants from the Washington State Department of Ecology (Ecology) have been offered to SeaTac and its grant partners totaling over \$297,000. Both grants ranked very high (one and two respectively) on the list of grants awarded to municipalities, allowing us to utilize approximately 35% of the total \$842,114 in funding offered in the 2017 to 2019 grant period.

The first grant for \$152,273 is a joint proposal developed by the City of Burien and its grant partners (SeaTac, Des Moines, and Normandy Park) to create a two-day stormwater and environmental education event scheduled the Spring of 2018 and 2019 in Des Moines Creek Park. The event known as Stormfest will be targeted at Highline School District elementary school students and is intended to be a model for other agencies planning to hold similar events in their jurisdictions.

The second grant for \$155,252 is a joint proposal developed by the City and the Washington Stormwater Center to hold the 2019 Municipal Stormwater Conference, known as 2019 Municon here in SeaTac at one of the local hotel convention facilities. This will be the 3rd Annual Municon, where jurisdictions come together to share research, methodologies, tools and strategies for meeting the components of the Washington State Municipal Stormwater Permits required under federal Clean Water Act. The City expects that this event will have a positive impact on local hotel and restaurants revenue during the event.

While the City and its grant partners have received award offers, there are several steps that have to be addressed before we can begin to implement the grants including grant contract negotiation and City Council acceptance of the grant offer. Both grants were applied for through Ecology's Grants of Regional and Statewide Significance program and have no matching funding requirements.

## SeaTac Environmental Grant Recipients

On Wednesday November 1, the Port of Seattle awarded the first grants under the new Airport Community Ecology (ACE) Fund Small Matching Grants Program to support environmental projects and programs in the cities of Burien, Des Moines and SeaTac. Over \$85,000 was awarded to 11 projects who applied for funding in these cities. The next grant cycle will begin in January 2018 with awards to be distributed in the spring. A big congratulations to the three award participants that provide community benefit within the SeaTac area.

### **Beach Heroes, Environmental Science Center all cities (\$10,000)**

The grant will sustain program's ability to partner with Highline School District teachers to bring 1,200 students to an education center at Burien's Seahurst Park.

### **StormFest, Futurewise, all cities (\$10,000)**

This program aims at increasing Highline Public Schools students' understanding of stormwater, reduce behaviors contributing to pollution and inspire stewardship long-term by providing hands-on, experiential education.

### **Neighborhood Heritage Garden, Highline Botanical Garden Foundation, SeaTac (\$10,000)**

Grant funds will support the development of a neighborhood history research project that will inform the design of the new Neighborhood Heritage Garden.

# POLICE NEWS

## Motel Contact Leads to Felon with Handgun

On November 2 at about 2:30 AM Officer Atterbury, patrolling the motel parking lot in the area of S. 188th Street/Military Road S. saw an occupied vehicle, parked with no motel parking pass. The Officer contacted the nervous occupants and learned that the passenger in the driver's seat had two felony warrants and one misdemeanor warrant. The resulting investigation led to the seizure of a handgun which is believed to be stolen, as the serial numbers had been filed down. The driver was arrested for the outstanding warrants. Charges for illegal possession of a firearm by a felon are pending further investigation.
