

## Comments Sought on Proposed Airport-Related Agreement

The city council and Port of Seattle Commission are continuing review of a proposed interlocal agreement (ILA) regarding the Seattle-Tacoma International Airport and other Port properties within the City. The new proposal, if adopted, will replace the current agreement which expires in February 2018. **The City Council is still seeking public input on this important decision.**

Sea-Tac Airport is located entirely within the City of SeaTac boundaries, covering over 40 percent of the city's land area. The proposed ILA addresses the overlapping authority between the City and the Port concerning such issues as planning, land use and zoning, transportation, surface water management, critical environmental areas and public safety. The purpose of the ILA is to jointly establish a mutual and cooperative system to recognize jurisdictional authorities and to avoid disputes. It is intended to provide transparency, predictability and consistency when addressing operations of Sea-Tac Airport and the City of SeaTac, and reduces the potential for litigation between the Port and the City.

The entire proposed ILA (updated with November 21 review), an Executive Summary and an updated Frequently Asked Questions (FAQ) page are on the City's website (City of SeaTac).

A detailed presentation occurred during the November 28 Council Study Session and Regular Council Meeting.

The Council is currently scheduled to continue its discussion and deliberation at the December 12 Council Meeting. The Port of Seattle Commission also has a meeting scheduled for earlier that afternoon.

In addition to accepting public comments during those meetings, comments and questions are encouraged to be sent directly to: [ILAComments@ci.seatac.wa.us](mailto:ILAComments@ci.seatac.wa.us). The Port of Seattle Commission is also accepting comments at [Port.SeaTac.ILA@portseattle.org](mailto:Port.SeaTac.ILA@portseattle.org). Both the City Council and Port Commission request all comments to be submitted by **December 5**.

## SeaTac Transitions to a New Phone App

The City of SeaTac is transitioning to a new phone app to support our Click-N-Request reporting system established in 2012. The updated phone app has the same branding (Click-N-Request) as our original version, just a different service provider – SeeClickFix. The phone app is designed to allow citizens to report a problem to the City without having to call in or submit an email. While the new phone app went into effect on November 13 of this year, City staff will announce once all testing has been completed and the integration of the new application is finalized.

The new phone app will be fully operational by mid-December. To help make citizens aware of the transition, existing phone app users were notified via email of the change.. To download the new phone app, citizens can go to their favorite app store, and search for SeeClickFix and download the SeeClickFix app. When this app is operated within the City, the SeaTac Click-N-

-Request branding will appear on the screen.

As the City is still in a transitioning stage, we would appreciate hearing any feedback you might have. To submit feedback on the new phone app, please call 206.973.4722 or email [kspen-](mailto:kspen-)

## Port's Community Tree Planting Event

On December 2, a Saturday, from 9:30 AM to 12:30 PM, join Port employees as they plant Douglas fir saplings near 200th Street. The saplings come from Port property where they could eventually grow tall enough to become aircraft obstructions. By transplanting them to a new location a safe distance away, they will contribute to the Port's efforts to restore well-functioning native forests around the airport's perimeter.

Volunteers are asked to meet at the SCORE jail parking lot at 20817 17th Avenue S., at 9:30 AM. Clothes and shoes appropriate for working outdoors in late fall weather are recommended. The Port will provide snacks and tools. To confirm your participation, send an email to [safecorridor@portseattle.org](mailto:safecorridor@portseattle.org).

# POLICE NEWS

## **Officer Seeks Medical Treatment after Exposure to Hazardous Substance**

On November 23 at about 8:30 PM, SeaTac Officers were dispatched to the area of S. 162nd and Military Road S. to check on three occupants of a suspicious vehicle who were described as “passed out, for several hours”. The passenger was sleeping with evidence of narcotics use on his lap and a bag of white powder in his hand. He was arrested and the evidence items were seized. While field-testing the evidence to determine the contents, the officer had a negative physical reaction consistent with hazardous material exposure. He was transported to a local hospital for evaluation and released a few hours later, without injury or further complication. Field tests of the substance indicated presence of illegal narcotics.
