

RESOLUTION NO. _____

A RESOLUTION of the City of SeaTac, Washington, requesting the King County Council, the Puget Sound Regional Council, the State Legislature, and the Governor’s Office to take action to address long-term aviation capacity needs in western Washington.

WHEREAS, the Sea-Tac International Airport (the “Airport”) is located within the City of SeaTac (“City”), covering approximately ___% of the City’s land area; and

WHEREAS, the City has experienced considerable and disproportionate health and environmental impacts due to proximity to the Airport; and

WHEREAS, the City recognizes that the Airport is an engine for economic growth for the region; and

WHEREAS, the City has formed an Airport Committee, that examines both the positive and negative impacts of the Airport to the City; and

WHEREAS, the Airport’s growth is averaging 9% annual rate from 2013-2016 and the expected timeframe for the Airport to exceed capacity is likely to be by 2025 and not 2034 as outlined in the Sea-Tac Sustainable Airport Master Plan (SAMP); and

WHEREAS, since 1989, various governmental agencies tasked by state statute with planning and decision-making related to ensuring future aviation and airspace capacity have failed to identify or promote any alternatives;¹ and

¹ Puget Sound Air Transportation Committee, “Flight Plan,” June 17, 1992 (see: <http://www.historylink.org/File/4201>); Puget Sound Regional Council, “PSRC Supplemental Airport Site Search,” October 27, 1994 (see: <http://www.historylink.org/File/4204>); Washington State Department of Transportation, “Washington State Long-Term Air Transportation Study” (LATS), July 1, 2009 (see: <http://www.wsdot.wa.gov/aviation/LATS.htm>); Washington Department of Transportation, Washington Aviation Strategic Plan (WASP), July 2017 (see: <https://www.wsdot.wa.gov/aviation/Planning/>)

WHEREAS, the financial costs and environmental impacts of continued expansion at the Airport are not sustainable; and

WHEREAS, the Airport footprint, transportation infrastructure, and air space capacity will constrain future growth and compromise safety; and

WHEREAS, various other airports exist within the greater Puget Sound and Western Washington region that could potentially accommodate some aviation growth, and that coordination among these facilities is limited; and

WHEREAS, the Airport Committee and City Council believes that immediate action is needed to coordinate plans for long- term aviation capacity for the greater Puget Sound and Western Washington region to ensure the ability to accommodate anticipated growth and to minimize further impacts on the City and adjacent communities.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SEATAC, WASHINGTON, DOES RESOLVE AS FOLLOWS:

Section 1. Action Requested. The City Council of the City of SeaTac herein requests that the King County Council, the Puget Sound Regional Council, the State Legislature, and the Governor’s Office take deliberate action to fund and implement the means to cooperatively update an existing or, as needed, develop a new plan that will address the region’s long-term aviation capacity needs. This effort will serve the purposes of both future economic development and reduction of health-related impacts for communities proximate to airport facilities. To address capacity needs, this effort must be launched as soon as possible.

Section 2. SeaTac’s Cooperation. The SeaTac City Council is willing to assist or participate with the effort outlined in Section 1 as necessary.

Section 3. Responses Requested. The SeaTac City Council requests that the entities named in Section 1 respond to the City Council of their intended actions no later than sixty days from receipt of this Resolution.

Section 4. Transmittal of this Resolution. The City Manager is directed to transmit a copy of this Resolution to the following persons:

- The Honorable Joe McDermott, Chair, King County Council
- Josh Brown, Executive Director, Puget Sound Regional Council
- The Honorable Joe Fitzgibbon, Washington State Legislature
- The Honorable Tina Orwell, Washington State Legislature
- The Honorable Mia Gregerson, Washington State Legislature
- The Honorable Karen Keiser, Washington State Legislature
- The Honorable Jay Inslee, Washington Governor

PASSED this _____ day of _____, 2018, and signed in authentication thereof on this _____ day of _____, 2018.

CITY OF SEATAC

Michael J. Siefkes, Mayor

ATTEST:

Kristina Gregg, City Clerk

APPROVED AS TO FORM:

Mary Mirante Bartolo, City Attorney

[Long-Term Airport Capacity Resolution]

Airport Conference Options and Alternatives

-Cursory review of cities with major U.S. Airports in/around a city is 189 (Leonard's Guide)

-Airport Associations (Airport Centric)

Airports Council International (ACI): Represents local, regional, and state governing bodies that own and operated commercial airports.

American Association of Airport Executives (AAAE): Professional Association represents Airport management personnel and public use commercial and general aviation airports in the U.S.

Airport Revenue News (ARN): Media resource on issues affecting companies doing business in airports. Food and Beverage, retail, development, duty-free and passenger service.

Airport Consultants Council (ACC): Global trade Association that represents Private Businesses involved in the development and operations of airports and related facilities. Focus is with firms with airport related technical expertise.

-Professional Associations (City Centric)

National League of Cities (NLC): The National League of Cities (NLC) is dedicated to helping city leaders build better communities. The mission of the National League of Cities is to strengthen and promote cities as centers of opportunity, leadership and governance.

- 1.) Prepare a presentation to present at National Conference
- 2.) Try and generate an ongoing national discussion
- 3.) Many U.S. Cities supports airports within city boundaries
- 4.) Reached out to NLC and response attached

-SeaTac Symposium (Cities with Airports)

Convene surrounding Cities, Elected Officials, Legislative Partners, etc., for Topics Based symposium. Topics could include ILA's, Noise and Emissions, Partnerships, Legislative options, Traffic, Regulations, Public Safety, Commonalities/Differences, Opportunities, etc. End the Symposium with Roundtable discussion with lessons learned, collaboration, new topics, another symposium.

[Home](#) » [About ACC](#)

ABOUT ACC

The Airport Consultants Council (ACC) is the global trade association that represents private businesses involved in the development and operations of airports and related facilities. ACC is the only association that focuses exclusively on the business interests of firms with airport-related technical expertise. ACC informs its members of new trends while promoting fair competition and procurement practices that protect the industry's bottom line.

Founded in 1978, ACC Headquarters is located in the Washington, D.C. area.

AIRPORT CONSULTANTS COUNCIL (ACC)

MISSION

The Airport Consultants Council...*delivering excellence in airport development.*

The VISION of ACC is to:

- Provide networking and information exchange opportunities for a diversified membership
- Be the "go-to" organization on airport development issues
- Advance international engagement and collaboration
- Foster a cooperative, educational and professional environment by offering responsive educational services, and facilitating innovative business practices
- Maximize the value of membership participation and offerings

Statement of Principles

All members of the Airport Consultants Council recognize their professional responsibilities to the aviation industry and to the general public. The following principles guide ACC members' conduct:

- Exhibit the highest standards of professionalism and integrity in the performance of services and delivery of products
- Present qualifications, capabilities, and product claims in a factual manner
- Avoid conflicts of interest
- Disclose to a client any known circumstances which compromise the member's ability to serve the client's best interests
- Exhibit standards of professional business conduct when competing or associating with other firms and individuals
- Give due credit to associated parties when presenting project activities

About

Airport Revenue News is a multi-channel media resource providing timely coverage and expert perspective on the issues impacting companies doing business in airports. Through its publications and conferences, ARN connects the airport business community with targeted information and access to opportunities in food and beverage, retail, development, duty-free and passenger services.

Covering The Airport Revenue World

Airport Revenue News (ARN) has covered timely and pertinent issues impacting revenues at airports. The monthly magazine is primarily focused on revenue trends, strategies, noteworthy developments, emerging opportunities and legislative updates of the airport industry as well as the businesses that operate within them.

ARN began publishing as a biweekly newsletter in 1995 (formerly known as Airport Retail News). In September 2001 the newsletter transitioned to Airport Revenue News and has become the foremost publication for news and information on the airport revenue industry.

ARN Fact Book

ARN also publishes the industry's annual Fact Book, a comprehensive resource detailing concession programs in top airports and key concession companies in the airport retailing industry.

The ARN Fact Book is the airport retailing industry's foremost resource book on concession programs in top airports. Published once each year, the comprehensive book contains revenue details on North American airports and hard-to-find data such as concession rents, revenues and sales per enplanement on several segments of each airport's concessions program. In the latest edition you will see sales from food and beverage, specialty retail, news and gifts, duty free, passenger services and advertising - on a terminal-by-terminal basis. Plus, you'll find information on parking and car rental, as well as ratios of pre- to post-security concession locations and business to leisure traffic.

Plus, get all the information you need on key airport retailers, service providers, consultants, developers, managers and more. You'll get all the critical details you need to make contact with key companies in the airport retailing business. For more information about the Fact Book please click here (<http://arnfactbook.com/>)

Conference & Exhibition

ARN also hosts its annual Airport Revenue Conference & Exhibition to provide attendees an opportunity to learn more from experts around the world, network with key industry participants and showcase their companies to this hard-to-reach audience. The ARN show features the largest gathering of airport decision makers and concession executives at any conference throughout the year. Featured during the conference are presentations by leading experts who share their research and expertise on cutting edge trends and business strategies in the areas of food and beverage, retail, technology, customer service, and much more. Additionally, an exhibit hall showcases the foremost companies and airports in the business. For more information about the conference please click here (<http://arnconference.com/>)

Who We Are

Organization

The Airports Council International – North America (ACI-NA) represents local, regional and state governing bodies that own and operate commercial airports in the United States and Canada. Approximately 380 aviation-related businesses are also members of ACI-NA, providing goods and services to airports.

ACI-NA's members enplane more than 95 percent of the domestic and virtually all the international airline passenger and cargo traffic in North America.

The **mission** of ACI-NA is to advocate policies and provide services that strengthen the ability of commercial airports to serve their passengers, customers and communities.

ACI-NA is one of the **five worldwide regions** of Airports Council International (ACI).

What We Do

- **Advocacy** - ACI-NA professional staff in the Government Affairs, Legal, Environment, Safety, Security, Operations and Technical departments, works to ensure that legislation and regulations enacted in Washington, D.C., help airports operate more safely and efficiently.
- **Promotion** - ACI-NA actively works to generate favorable media coverage of ACI-NA, airports and airport issues. Communications staff responds to hundreds of media requests about airports and

- aviation annually.
- **Communications** - The staff also keeps members informed of key industry developments, trends and people through the ACI-NA *Daily Clips* emails, quarterly magazine *Centerlines*, and *Centerlines Blog* along with regular e-mail communications from staff and committees.
 - **Research** - ACI-NA Economic Affairs and Research department produces data that helps airports benchmark their operational statistics to industry standards. Surveys include The Airport Capital Development Costs Study, annual North America Traffic Report and annual Airport Performance Benchmarking Survey.
 - **Networking** - ACI-NA 17 committees ensure that airport officials have the latest information on regulatory and industry issues. From Air Cargo to Business Diversity to Environmental and Operations and Technical Affairs, these groups develop policy, legislation and regulatory comments for the benefit of the airport industry. Committee members also discuss issues of common interest and plan conference programs so the content is relevant to what's happening at North American airports.
 - **Education** - ACI-NA produces more than 20 conferences and educational opportunities each year offering high-quality educational experiences for airport and Associates staff that are unique in the industry. Top-level speakers from government and industry, plus the opportunity for professional development, networking and learning about new industry trends and standards, are all conferences benefits.
 - **Annual Conference and Exhibition** - ACI-NA Annual Conference and Exhibition attracts 2,000 delegates and exhibitors representing more than 150 airports through the United States and Canada. Airport CEOs, senior airport management, commissioners and other industry officials with decision-making authority attend the Annual Conference for education, industry insights and fun.
 - **Annual Contests and Recognition** - ACI-NA has a rich history of recognizing best practices and individuals through its award programs.

For additional information concerning the corporate organization of ACI-NA, please contact the ACI-NA General Counsel.

WIKIPEDIA

American Association of Airport Executives

The **American Association of Airport Executives** (AAAE) is the professional association that represents airport management personnel at public-use commercial and general aviation airports in the United States of America. It provides its members with industry-related services, support, training, and various professional development opportunities.^[1]

History

The American Association of Airport Executives was founded in September, 1928, at what is now Los Angeles International Airport. Created by 10 airport directors, it was created as an organization to represent airport management throughout the United States.

Today, AAAE's nearly 5,400 members represent 850 airports and numerous other airport-related corporations and organizations. It maintains six regional affiliate chapters that provide services on a local level.^[2]

Currently, Scott A. Brockman, A.A.E. is the acting chair of the AAAE.^[3] Mr. Brockman is additionally the President and CEO of the Memphis International Airport.^[4]

Professional Development

AAAE offers three professional accreditation/certification programs to its members:

An *Accredited Airport Executive* (A.A.E.) has met specific membership, age, experience and education requirements, has demonstrated the ability to handle the responsibility of airport management, and possesses an exceptional knowledge, comprehension and understanding of aviation management. Members who complete this program earn the right to use the "A.A.E." designation after their names.^[5]

A *Certified Member* (C.M.) has met specific membership requirements and has demonstrated comprehensive knowledge of airport management. Members who complete this program earn the right to use the "C.M." designation after their names.^[6]

An *Airport Certified Employee* (ACE) has completed a training/education program in one of four fields (Operations, Airfield Lighting Maintenance, Security or Communications) and has earned the right to use the "ACE" designation after his or her name.^[7]

Aviation Noise & Emissions Symposium.

February 25-27, 2018
Long Beach, California

WHAT is it all about?

The UC Davis Aviation Noise and Emissions (ANE) Symposium **will focus** on ground-breaking science, legislative efforts, and community interactions being undertaken by the aviation community. Find out from elected officials, airports, consultants, the FAA and community members what lessons they have learned and successes they have celebrated in their search for solutions to the impacts of NextGen noise and emissions.

AIR QUALITY
RESEARCH CENTER

Hosted by UC Davis Air Quality Research Center

The University of California, Davis's Air Quality Research Center is proud to present the ANE Symposium to the Aviation Community of airports, consultants, community members, elected officials and the FAA. UC Davis is excited to renew this conference for the 32nd year running and be on the forefront of educating people about the latest research and efforts within the industry.

Welcome.

A Welcome Message

- from Sandra Hall, Symposium Manager, UC Davis Air Quality Research Center

As the new symposium manager for the UC Davis Air Quality Research Center - it is my great pleasure to invite you to join us at our 32nd annual Aviation Noise & Emissions Symposium, which will be held in the beautiful city of Long Beach, CA, on February 25-27, 2018.

For over three decades, this venerable symposium has been the premiere event nationally and internationally for bringing together stakeholders tackling difficult aviation noise and emissions issues, with a recent focus on problems caused by the transition to NextGen satellite-based navigation.

2018 opens a new chapter in the history of the symposium with the launch of an updated and refreshed conference at a wonderful new venue.

Think of it as the UC Davis Aviation Noise & Emissions Symposium Version 2.0!

You will see a new emphasis in 2018 on improving your conference experience by offering enlivened networking opportunities, enhanced speaker presentations, and the latest conference technologies and apps.

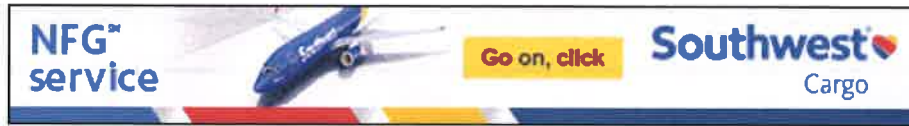

The Program Planning Committee has worked diligently to produce a program that presents the latest scientific findings and legislative mandates, cutting-edge technologies and practices, and lessons learned in recent mitigation efforts – and we are all eager to present it to you.

'On the Cusp of Change' is the 2018 program theme and it captures the exciting potential of the symposium presentations to provide a path forward in addressing NextGen environmental issues.

I look forward to seeing you at the Renaissance Hotel in Long Beach, which is within walking distance of fine restaurants and a world-class aquarium.

With warmest regards,

Sandra Hall

United States Airport Codes

What is an IATA three-letter airport code?

United States airports, as well as airports around the world use a universal unique **three-letter airport code**, or **Location Identifier** defined by the International Air Transport Association. It's easier to say, and write **LAX** than **Los Angeles International Airport** for the pilots, controllers, travel agents, frequent flyers, computers and baggage handlers. It's the three-letter code you see on baggage tags in the airport.

Are there four-character codes?

The ICAO airport code is a four-character alphanumeric code used to designate all airport around the world as defined by the International Civil Aviation Organization. ICAO codes differ from the IATA codes used for reservations and baggage, as they are used by air traffic control for flight planning and airline operations, and are not included in this list.

Subject: RE: Cities with Airports

Dear Mr. Ramsaur,

Thank you for your note. I agree that airports are a significant economic engine in cities and that the means of managing said property are varied and often complex. I think most cities make use of a single purpose local government (an airports authority) to run/manage the airport. The financial arrangements for capital investments, operations, and other aspects are probably among the most interesting to anyone interested in the nation's infrastructure.

I do think that an educational program that looks at models across cities of different sizes and in different states is a good program for NLC's members. We do solicit proposals for workshops hosted at our annual meeting. In 2018 we will go to Los Angeles in November.

NLC's call for proposals will be issued in the Spring. We certainly will welcome a proposal from SeaTac along the lines you suggested.

Best regards,

Jim Brooks

Subject: Cities with Airports

Mr. Brooks,

The City of SeaTac, WA just signed an Inter-local Agreement with the Port of Seattle concerning the SeaTac Airport. With that completed the question was asked "How many other cities have an airport within their city limits and how does each city handle this unique circumstance?" SeaTac would like to know if this subject has come up within the

NLC and if so where can I find some information. I completed a search of U.S. cities with airports and there is quite a few nationwide. I think an airport brings challenges and opportunities and could be a topic of interest at a conference with a wide variety of tracks. Would the NLC be the place to have this topic and discussion presented or are there other organizations that already handle this issue? Any help you or anyone else at NLC can provide would be beneficial. Thank you for your time,

Tim Ramsaur, Sr. Management Analyst | City Manager's Office | City of SeaTac
