New Pilot Program to Allow Visitors Past Security at Sea-Tac Airport

Residents of SeaTac can now visit Sea-Tac Airport and go beyond the security gates as part of a new pilot program. The Port of Seattle launched the SEA Visitor Pass pilot program allowing the public to enter the post-security side of the terminal even if they are not traveling at Seattle-Tacoma International Airport. This means that residents can visit the local shops and restaurants at the airport without having to purchase a ticket.

You can sign up for the SEA Visitor Pass pilot program and take advantage of the events, amenities, restaurants, and boutiques at the airport—without having to book a ticket on a flight. The pilot program will run through December 14 and the Port will study the feasibility of continuing the program permanently. For more information and to sign up, click [here](#).
