

Snow Route Map

SNOW PLOWING PRIORITY AND CLOSURES

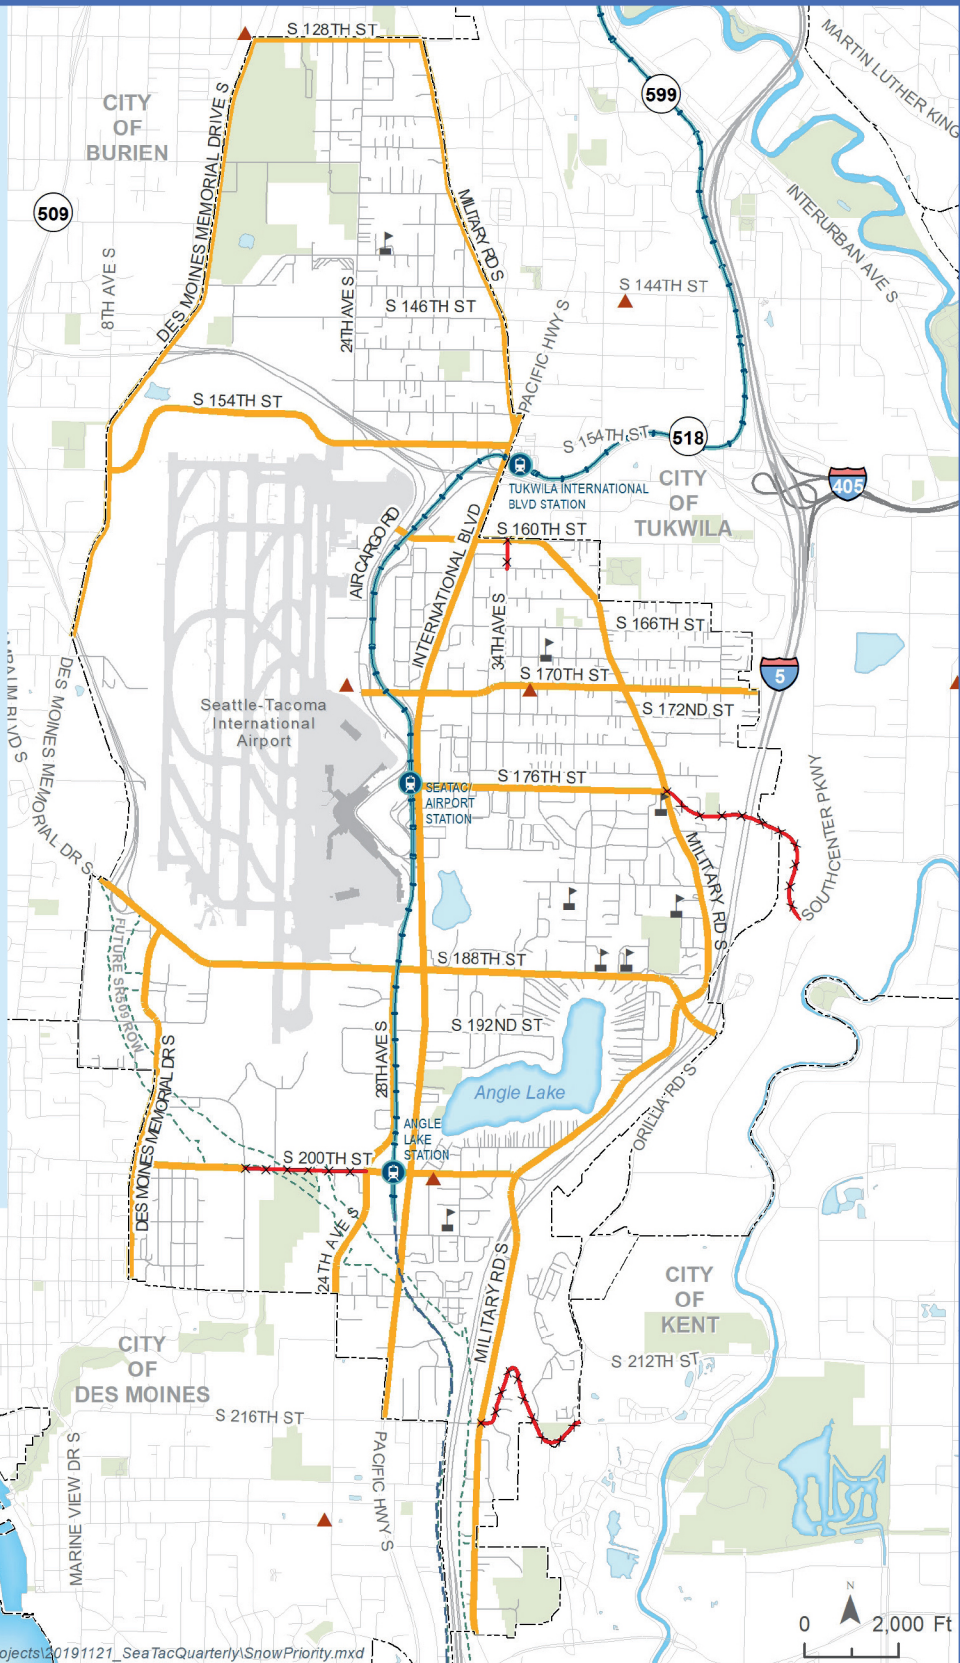

In the event of severe weather, the City's Public Works Department goal is to have all designated City priority arterial routes passable as soon as possible to ensure safe access for fire, medical and police response, as well as transit, school buses and commuter traffic.

In anticipation of freezing temperatures, Public Works crews will spray salt brine, a mixture of salt and other liquids, to prevent frost or black ice from forming and snow from sticking to the road.

During snowfalls, Public Works crews operate around-the-clock to have the established list of priority roads cleared. Next, crews will clear residential streets as soon as weather permits.

Direct questions or report road hazards to Public Works maintenance shop, 206.973.4770
