MAJOR CONDITIONAL USE PERMIT

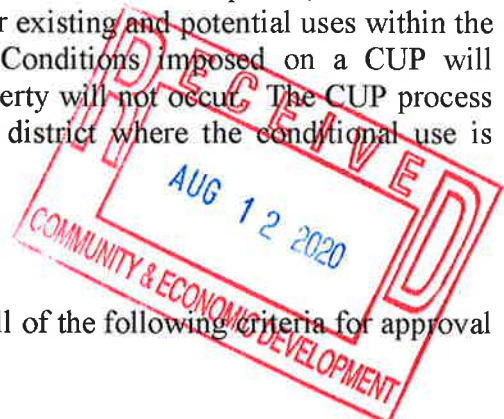

DEFINITION AND PURPOSE:

A Conditional Use Permit (CUP) is a permit granted by the Hearing Examiner which sets special conditions regarding a use in a zone where the use is not normally allowed. The CUP process is a means of imposing special conditions and requirements on development, so that the compatibility of uses shall be maintained considering other existing and potential uses within the general area where the conditional use is proposed. Conditions imposed on a CUP will reasonably assure that a nuisance or hazard to life or property will not occur. The CUP process is not a means to reduce the requirements of a zoning district where the conditional use is proposed.

CONDITIONS FOR APPROVAL:

The applicant must show that the proposed use satisfies all of the following criteria for approval by the Hearing Examiner.

1. The proposed use is listed as a Conditional Use under the zone classification use charts, Chapter 15.12 of the SeaTac Municipal Code Volume II.
2. The applicant must justify:
 - a. The site is adequate in size and shape for the proposed project and the use conforms to the general character of the neighborhood.
 - b. The unique character of topography, arterial streets and adjacent land use complement the proposed conditional use.
 - c. The conditional use would not be detrimental to surrounding land use.
 - d. Modifications to standards are limited to those which will mitigate impacts in a manner equal to or greater than the standards of this code.
 - e. The conditional use is such that pedestrian and vehicular traffic associated with the use will not be hazardous or conflict with existing and anticipated traffic in the neighborhood.
 - f. The conditional use will be supported by adequate public facilities or services, and will not adversely affect public services to the surrounding area unless conditions can be established to mitigate adverse impacts.
