

PROJECT INFORMATION

Site 4 - S 198th St from 32nd Ave to Military Rd S

Project Description

This project is identified in the 2015 SeaTac Transportation Master Plan as Public Works Capital Improvement Project ST-N35. Project consists of constructing a new pedestrian facility (sidewalk or shared use path) and sharrows (shared vehicular/bicycle lane).

Potential to include undergrounding overhead utilities, landscaping, storm drainage infrastructure, and pedestrian lighting. Right-of-way may be required to build out 60-ft street section.

Project Purpose and Need

Dedicated pedestrian facilities along S 198th St and 32nd Ave S do not exist along this segment. This local road links the neighborhood to transit on S 200th St and International Blvd. This road also acts as an alternative route for traffic to avoid the signalized intersection at Military Rd S and S 200th St.
