4	Sidewalk Selection, continued	<p>Discussion/Action</p> <p>Florendo Cabudol, City Engineer, continued the discussion and scoring of the five sidewalk candidate selections. Committee members were asked to bring their raw scores for the six selection criteria for each of the five selection candidates.</p> <p>Additional information given to the Committee prior to scoring was the approximate ROW width for each location:            32<sup>nd</sup> Ave S – 60 feet            South 142<sup>nd</sup> St – 60 feet            South 144<sup>th</sup> St – 60 feet            South 198<sup>th</sup> Street – 40 to 60-foot range            Military Road South – 60 feet</p>	Florendo Cabudol	

		<p>Raw scores were read out loud by each of the six Committee members present, and the results were tallied.</p> <p>Composite scores (highest is the top candidate):  Military Road South – 23.52  South 142<sup>nd</sup> Street – 22.90  South 144<sup>th</sup> Street – 20.81  32<sup>nd</sup> Ave South – 18.10  South 198<sup>th</sup> St. - 15.52</p> <p>A question was raised about the top candidate, Military Road South. the City is currently in talks with Kent School District, and there is a possibility that the Military Road South sidewalk may be built by others; in which case, the City could immediately move to the second place candidate, South 142<sup>nd</sup> Street, and do the design work for that location.</p> <p>The Committee made a motion and approved to move forward with design and construction of the top candidate, with the caveat that if this location is built by others, then staff would move to design the second candidate, South142<sup>nd</sup> Street.</p> <p>At the end of the meeting, it was stated that the residents/property owners of future sidewalk locations should be able to choose between full sidewalks on both sides of a street or opt to choose sidewalk on one side of the street only, or a separated paved path.</p> <p>The meeting was adjourned.</p>
