I would like to submit the below comment to be read at the city council meeting on 5/23.

Hello city council,

I care to bring to your attention the continued public safety concerns located at 20638 13th Ave S SeaTac WA 98198.

My husband and I moved into the neighborhood in March of 2021 and are direct neighbors to this property sharing an immediate fence. This property has only increased in health and safety concerns since we moved in.

I know have two littles; a 2.5yr old son and a 1 year old daughter. Last summer when we were outside playing someone got shot next door and we had to be the ones to call it in because no one next door at the residence for concern seems to have a working telephone.

There are countless nights that I see cop car lights through my bedroom window coming to deal with the next issue these people are causing in our neighborhood. I have seen stolen cars on the property. I have watched swat team of some sort have to come in a forcefully remove a young child from living in a non working, dilapidated RV in 90 degree weather. I have watched people on the property shoot up drugs. I have seen the influx of comings and goings only to assume they are dealing drugs on the property. I have seen the number of items, trash grow on the property causing it to look like a hoarder house. I have had to deal with one of them flying a drown over my property. I have had to deal with them burning things that aren't just charcoal and wood to the point where I can smell it inside my house. I have had to deal with protecting my children from lose dogs on the property. When will enough be enough. I know the city is aware of the rap sheet a mile long for this property it is your job to end this nonsense.

I want to raise my family in a neighborhood where I feel safe to walk my kids, where I feel safe to have my kids play in their own back yard, where I feel I will not have to worry about them being exposed to gun violence and drug use at such a young age. The city of SeaTac and you council members need to do right by your community members and put a stop to this property.

Jessica Ulrich

Subject: 5/23/23 RCM: Support for AB-6271

[NOTICE: This message originated outside of City of SeaTac -- **DO NOT CLICK** on **links** or open **attachments** unless you are sure the content is safe.]

Dear Council members,

I am writing to express my support for the proposal to amend the agreement with ANEW and allocate funds for the Apprenticeship program. This program will create valuable opportunities for our youth, and contribute to our city's economic growth.

The proposed budget of \$115k for stipends, transportation, meals, and safety equipment is a reasonable investment. With \$3M available from the ARPA fund, directing a portion towards this program aligns with our commitment to equitable opportunities.

"Participation barriers would be removed if the City is able to provide compensation not only for an apprentice's personal needs, but to enable each apprentice to obtain required safety equipment, access to transportation, and meals. This would allow students to build skills that set them up for successful careers in the trades. These trade jobs can pay significantly higher wages than the minimum wage service and hospitality jobs normally open for them."

I urge you all to consider the long-term benefits and positive impact this investment will have on the lives of young adults in SeaTac. By providing them access to apprenticeships, we equip them for future success and contribute to the growth of our community.

Thank you for your consideration.

-Joe Vinson
