

SEPA ENVIRONMENTAL SUBMITTAL CHECKLIST & SEPA CHECKLIST FORM

DEPARTMENT OF COMMUNITY & ECONOMIC DEVELOPMENT

PURPOSE

The State Environmental Policy Act (SEPA), Chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of certain proposals before making permitting decisions.

The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an Environmental Impact Statement (EIS) is required.

An EIS must be prepared for all proposals with probable significant adverse impacts on the quality of the environment.

CITY HALL CONTACT

4800 South 188th Street
SeaTac, WA, 98188
Ph: 206.973.4750

PACKET MATERIALS

This packet is divided into two (2) sections. Both sections must be completed and submitted for review. An incomplete packet will not be accepted for review.

FORM A: Environmental (SEPA)
Submittal Checklist Form

FORM B: SEPA Environmental
Checklist

INSTRUCTIONS

This Environmental Checklist asks you to describe some basic information about your proposal. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your observation or project plans, however, you may need to consult with an agency specialist or private consultant for some questions.

If You Don't Know the Answer

You may use "not applicable" or "does not apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies reports. Complete and accurate answers to these questions often avoid delays with the SEPA process as well as later in the decision-making process.

Staged Development

The Checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal, or its environmental effects. The City may ask you to explain your answers or provide additional information related to determining if there may be significant adverse impact.

APPLICATION FEE

The application fee is paid at the time of submitting a complete application. This fee is in addition to any other permit related fees.

Find fee schedule at:

<https://www.seatacwa.gov/how-do-i/view/fee-schedule>

'SIMPLE' LAND USE & SEPA REVIEW PROCESS

Pre Application Meeting

An applicant shall have a Pre-Application Meeting with the City before an application is accepted.

Determination of Completeness (DOC)

Upon the City's acceptance of a permit application, you will receive a "Determination of Completeness" (DOC) within 28 days of the submittal of your application stating whether your permit application is complete, not complete or if additional information is required. Note, this process only pertains to permits that require a comment period.

Notice of Application (NOA)

A "Notice of Application" (NOA) will be published and sent to adjacent property owners within 300ft -1,000 ft of the subject property. The NOA will be issued within 14 days after a DOC is issued. There is a 14 day comment period for a NOA. Note, this process only pertains to permits that require a comment period.

Notice Board Posting:

At this time, you will be required to post a "Notice Board" on the property detailing the proposed land use action. An example of the sign and further instructions will be provided to you as part of your NOA Letter.

SEPA Determination Issued

A SEPA determination will be issued shortly after the NOA comment period ends. Notification of the SEPA determination will be in the same manner as a NOA.

14 day comment period & 10 Day Appeal Period Follows

The determination will be published, posted and sent to all parties of record within 300ft-1,000ft of the subject property and to all "Parties of Record". People will have 14 days to make comment, followed by a 10 day appeal period. If no appeals are recieved, the process is complete.

Removal of Notice Board

The "Notice Board" shall be removed within 30 calendar days of the publication of the SEPA Determination.

FORM A: ENVIRONMENTAL (SEPA) SUBMITTAL CHECKLIST

Staff Use Only:

SEP #:

Project Name:

1. A submittal will NOT be accepted for intake if the project has not had the required Pre-Application meeting. To schedule the required meeting, you must complete the required Pre-Application meeting request found here: <https://www.seatacwa.gov/government/city-departments/community-and-economic-development/permits-land-use-applications> and submit it to the Permit Center.
2. The following materials are the minimum that must be submitted to review your application. **Please do not turn in your application until all items listed below have been checked off.** Submittals will not be accepted unless complete. Return completed checklist with application.
3. A Determination of Completeness (DOC) will be made within twenty-eight (28) days of the application submittal stating whether the application is complete or if additional information is required.

PLAN SUBMITTAL		Applicant	Staff
1	Master Land Use Application form, completed.	N/A	
2	Completed Environmental Checklist: Original copy.	X	
3	Additional items as identified in a pre-application meeting, if applicable.	N/A	
4	Required fee(s) paid.	X	
5	Electronic: A thumbdrive with electronic copies of all documents, OR Paper: Original, plus four (4) copies of all documents. Plan set 24"x36".	N/A	
6	A dimension Site Plan, drawn to scale (1 in. = 20, 30, 40 ft.) showing the following: <ol style="list-style-type: none"> a) Dimension and shape of lot with adjacent street names b) A <i>legal description</i> of the subject property c) Location and dimensions of existing and proposed buildings (engineering scale only) including the building height of proposed buildings d) Adjacent street improvements, ingress and egress 	X	

	<p>e) Required landscaping areas. A detailed landscape plan is not required, however, the site plan must show the dimensioned 'block' areas of landscape to demonstrate the code required landscaping can be accommodated on site</p> <p>f) Existing water courses, wetlands, utility lines, structures, rockeries or other relevant manmade or natural features, ordinary high water mark</p> <p>g) The gross floor area of buildings</p> <p>h) Parking calculations and location, dimension and number of parking spaces</p> <p>i) Existing and finished grades at 5' contours</p> <p>j) Location and dimensions of all easements referenced in the title report with the recording number and type of easement (e.g. access, sewer, etc.)</p> <p>k) Proposed storm drainage, sidewalks, conceptual grading and drainage plan</p> <p>l) The location of any recreation/open space with dimensions</p> <p>m) Proposed public dedication/open space (if any)</p>		
7	<p>Building facades drawn at 1/4", 1/8" = 1' or comparable scale showing:</p> <ul style="list-style-type: none"> · Elevations · Building height · Entrances 	X	
8	<p>Drawing and/or text describing the scale, bulk and architectural character of the proposed structure</p>	X	
9	<p>A text describing conditions or features which cannot be adequately displayed on maps or drawings</p>	X	
10	<p>A description of plans for covenants, uses and continuous maintenance provisions for the project</p>	X	
11	<p>Proposed phasing identified</p>	X	
12	<p>Vehicular and pedestrian circulation and any special engineering features and traffic regulating devices needed to facilitate or insure the safety of this circulation pattern.</p>	X	

FORM B: SEPA ENVIRONMENTAL CHECKLIST

Purpose of checklist

Governmental agencies use this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization, or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

Instructions for applicants

This environmental checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully, to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions. **You may use "not applicable" or "does not apply" only when you can explain why it does not apply and not when the answer is unknown.** You may also attach or incorporate by reference additional studies reports. Complete and accurate answers to these questions often avoid delays with the SEPA process as well as later in the decision-making process.

The checklist questions apply to **all parts of your proposal**, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Instructions for lead agencies

Please adjust the format of this template as needed. Additional information may be necessary to evaluate the existing environment, all interrelated aspects of the proposal and an analysis of adverse impacts. The checklist is considered the first but not necessarily the only source of information needed to make an adequate threshold determination. Once a threshold determination is made, the lead agency is responsible for the completeness and accuracy of the checklist and other supporting documents.

Use of checklist for nonproject proposals

For nonproject proposals (such as ordinances, regulations, plans and programs), complete the applicable parts of sections A and B, plus the [Supplemental Sheet for Nonproject Actions \(Part D\)](#). Please completely answer all questions that apply and note that the words "project," "applicant," and "property or site" should be read as "proposal," "proponent," and "affected geographic area," respectively. The lead agency may exclude (for non-projects) questions in "Part B: Environmental Elements" that do not contribute meaningfully to the analysis of the proposal.

A. Background [Find help answering background questions](#)

1. Name of proposed project, if applicable:

Zone Reclassification

2. Name of applicant:

UIL Architects / Kwanghyun (Daniel) Baek

3. Address and phone number of applicant and contact person:

1611 116th Ave NE Ste 208 Bellevue WA 98004
425-635-8914
dkb@uilarchitects.com

4. Date checklist prepared:

9/8/2023

5. Agency requesting checklist:

CITY OF SEATAC

6. Proposed timing or schedule (including phasing, if applicable):

None for the zoning change. This will be determined during a future development.

7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.

After rezoning, the western lot (parcel # 3445000127) will be divided into two lots. One of these lots, located to the north, will be sold for the purpose of an apartment development project by others. We, on the other hand, have plans to develop a hotel project on the southern lots. Please refer to the provided development plans for more details.

8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.

No environmental studies are known or anticipated at this time.

9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.

No.

10. List any government approvals or permits that will be needed for your proposal, if known.

None required.

11. Give a brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)

The purpose of the project is to request a zoning change from UH-900 to CB-C zoning to facilitate future commercial development, enhancing urban revitalization and aesthetics.

12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

B. Environmental Elements

1. Earth [Find help answering earth questions](#)

a. General description of the site:

Mild slope

Circle or highlight one: Flat, rolling, hilly, steep slopes, mountainous, other:

b. What is the steepest slope on the site (approximate percent slope)?

The area is relatively flat with slope of around 5% or less.

c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them, and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils.

The site primarily features well-draining sand and silty-sand with variable gravel content, but the exact composition will be determined later with an engineering report for a future project development.

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

There are no signs of unstable soils in the immediate vicinity.

e. Describe the purpose, type, total area, and approximate quantities and total affected area of any filling, excavation, and grading proposed. Indicate source of fill.

None for the zoning change. This will be determined during a future development.

f. Could erosion occur because of clearing, construction, or use? If so, generally describe.

None for the zoning change.

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

None for the zoning change. This will be determined during a future development.

h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any.

None required.

2. Air [Find help answering air questions](#)

a. What types of emissions to the air would result from the proposal during construction, operation, and maintenance when the project is completed? If any, generally describe and give approximate quantities if known.

None for the zoning change. This will be determined during a future development.

b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

None that are know at this time.

c. Proposed measures to reduce or control emissions or other impacts to air, if any.

None for the zoning change. This will be determined during a future development.

3. Water [Find help answering water questions](#)

a. Surface Water: [Find help answering surface water questions](#)

1. Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

No.

2. Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

No.

3. Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

None for the zoning change. This will be determined during a future development.

4. Will the proposal require surface water withdrawals or diversions? Give a general description, purpose, and approximate quantities if known.

No.

5. Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

No.

6. Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

No.

b. Ground Water: [Find help answering ground water questions](#)

1. Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give a general description, purpose, and approximate quantities if known.

No.

2. Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (domestic sewage; industrial, containing the following chemicals...; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

None known.

c. Water Runoff (including stormwater):

- a) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

No.

- b) Could waste materials enter ground or surface waters? If so, generally describe.

No.

- c) Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site? If so, describe.

No.

- d) Proposed measures to reduce or control surface, ground, and runoff water, and drainage pattern impacts, if any.

None required.

4. Plants [Find help answering plants questions](#)

a. Check the types of vegetation found on the site:

- deciduous tree: alder, maple, aspen, other
- evergreen tree: fir, cedar, pine, other
- shrubs
- grass
- pasture
- crop or grain
- orchards, vineyards, or other permanent crops.
- wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other
- water plants: water lily, eelgrass, milfoil, other
- other types of vegetation

b. What kind and amount of vegetation will be removed or altered?

None.

c. List threatened and endangered species known to be on or near the site.

None known.

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any.

None required.

e. List all noxious weeds and invasive species known to be on or near the site.

None known.

5. Animals [Find help answering animal questions](#)

a. List any birds and other animals that have been observed on or near the site or are known to be on or near the site.

Examples include:

- Birds: ~~hawk, heron, eagle~~ **songbirds** other: Crows
- Mammals: ~~deer, bear, elk, beaver~~ other: Squirrels, Rabbits
- Fish: ~~bass, salmon, trout, herring, shellfish~~ other: None.

b. List any threatened and endangered species known to be on or near the site.

There are no known threatened or endangered species on or near the site.

c. Is the site part of a migration route? If so, explain.

Yes, most of Western Washington is part of the Pacific Flyway migration route for birds.
The site is not significant in the flyway

d. Proposed measures to preserve or enhance wildlife, if any.

None.

e. List any invasive animal species known to be on or near the site.

None

6. Energy and Natural Resources [Find help answering energy and natural resource questions](#)

1. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

None.

2. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.

No.

3. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any.

None.

7. Environmental Health [Find help with answering environmental health questions](#)

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur because of this proposal? If so, describe.

1. Describe any known or possible contamination at the site from present or past uses.

None that are know at this time.

2. Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity.

None known.

3. Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project.

None required.

4. Describe special emergency services that might be required.

None required.

5. Proposed measures to reduce or control environmental health hazards, if any.

None required.

b. Noise

1. What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

None.

2. What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site?

None.

3. Proposed measures to reduce or control noise impacts, if any.

None.

8. Land and Shoreline Use [Find help answering land and shoreline use questions](#)

- a. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe.

The lots were previously occupied by mobile homes, but they are currently vacant. On the north side of the lot, there is a hotel and a restaurant. To the east, there are residential properties, while the south side features a combination of retail and residential areas.

- b. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses because of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to nonfarm or nonforest use?

None that are know at this time.

1. Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling, and harvesting? If so, how?

No.

- c. Describe any structures on the site.

None.

- d. Will any structures be demolished? If so, what?

No.

- e. What is the current zoning classification of the site?

UH-900

- f. What is the current comprehensive plan designation of the site?

COMMERCIAL HIGH DENSITY

g. If applicable, what is the current shoreline master program designation of the site?

Not applicable.

h. Has any part of the site been classified as a critical area by the city or county? If so, specify.

No.

i. Approximately how many people would reside or work in the completed project?

None until further development.

j. Approximately how many people would the completed project displace?

None until further development.

k. Proposed measures to avoid or reduce displacement impacts, if any.

None.

l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any.

We plan to change the current zoning (UH-900) to match the overlay zone (CB-C) of the city to enhance urban development and aesthetics.

m. Proposed measures to reduce or control impacts to agricultural and forest lands of long-term commercial significance, if any.

None required.

9. **Housing** [Find help answering housing questions](#)

a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.

None for the zoning change. This will be determined during a future development.

b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.

None.

c. Proposed measures to reduce or control housing impacts, if any.

None required.

10. Aesthetics [Find help answering aesthetics questions](#)

- a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?

None for the zoning change. This will be determined during a future development.

- b. What views in the immediate vicinity would be altered or obstructed?

As no views currently exist within the project area none would be altered.

- c. Proposed measures to reduce or control aesthetic impacts, if any.

None required.

11. Light and Glare [Find help answering light and glare questions](#)

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur?

None for the zoning change. This will be determined during a future development.

- b. Could light or glare from the finished project be a safety hazard or interfere with views?

None.

- c. What existing off-site sources of light or glare may affect your proposal?

None.

- d. Proposed measures to reduce or control light and glare impacts, if any.

None required.

12. Recreation [Find help answering recreation questions](#)

- a. What designated and informal recreational opportunities are in the immediate vicinity?

The Angle lake park is located approximately one and a half miles away from the site for water sports, including swimming, fishing, kayaking, and so on.

- b. Would the proposed project displace any existing recreational uses? If so, describe.

No.

- c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any.

None required.

13. Historic and Cultural Preservation [Find help answering historic and cultural preservation questions](#)

- a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state, or local preservation registers? If so, specifically describe.

None known.

- b. Are there any landmarks, features, or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts, or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources.

None known.

- c. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc.

No known cultural or historic resources exist within the site

- d. Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to resources. Please include plans for the above and any permits that may be required.

None required.

14. Transportation [Find help with answering transportation questions](#)

- a. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plans, if any.

There is one access on the east side from International Blvd. and one on the north from S. 204th Street.

- b. Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop?

The Angle Lake Station is approximately 1/2 mile from the site.

Additionally, there is a bus stop located at the intersection of S 200th St. and it's 1/2 mile away from the site as well.

- c. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle, or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private).

None.

- d. Will the project or proposal use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.

None.

- e. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and nonpassenger vehicles). What data or transportation models were used to make these estimates?

None.

f. Will the proposal interfere with, affect, or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe.

None.

g. Proposed measures to reduce or control transportation impacts, if any.

None required.

15. Public Services [Find help answering public service questions](#)

a. Would the project result in an increased need for public services (for example: fire protection, police protection, public transit, health care, schools, other)? If so, generally describe.

No.

b. Proposed measures to reduce or control direct impacts on public services, if any.

None required.

16. Utilities [Find help answering utilities questions](#)

a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other:

b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

None.

C. Signature [Find help about who should sign](#)

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

X 

Type name of signee: Click or tap here to enter text. Kwanghyun Baek

Position and agency/organization: Click or tap here to enter text. UIL Architects LLC

Date submitted: Click or tap to enter a date. 9 / 8 / 2023

D. Supplemental sheet for nonproject actions [Find help for the nonproject actions worksheet](#)

IT IS NOT REQUIRED to use this section for project actions.

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise?
 - Proposed measures to avoid or reduce such increases are:

2. How would the proposal be likely to affect plants, animals, fish, or marine life?
 - Proposed measures to protect or conserve plants, animals, fish, or marine life are:

3. How would the proposal be likely to deplete energy or natural resources?
 - Proposed measures to protect or conserve energy and natural resources are:

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection, such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?
 - Proposed measures to protect such resources or to avoid or reduce impacts are:

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?
 - Proposed measures to avoid or reduce shoreline and land use impacts are:

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

- Proposed measures to reduce or respond to such demand(s) are:

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.
