

South 200th Link Extension

Construction Alert

August 2013

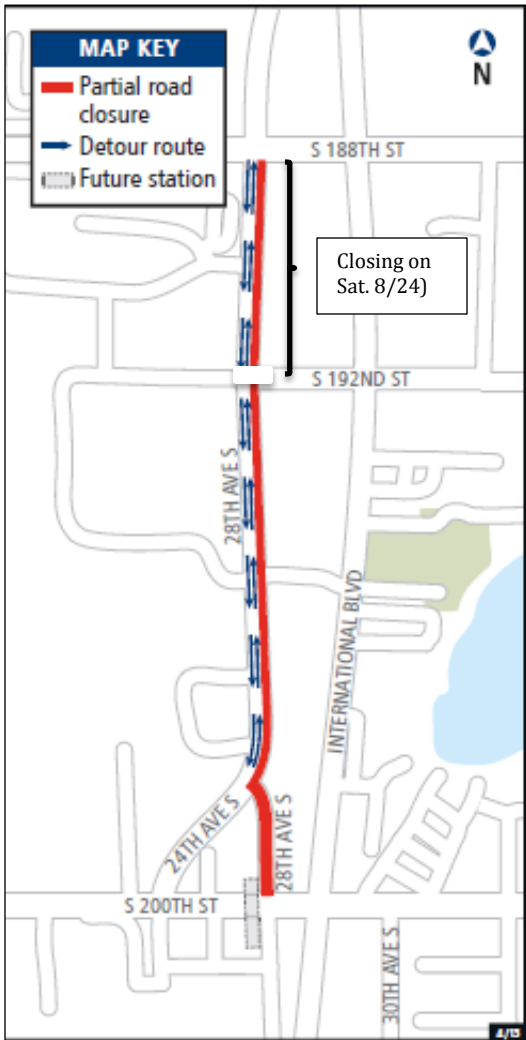

Northbound lanes of 28th Avenue South Second phase of temporary long- term traffic switch

On **Saturday, August 24 at 9:00 a.m.**, Sound Transit's contractor, PCL Civil Constructors, will continue the closure of the northbound lanes of 28th Ave South. The road will now be closed between S. 192nd Street and South 188th Street in SeaTac, in addition to the section that was previously closed.

For the next three years, all northbound traffic will be routed alongside southbound traffic to share two lanes on 28th Avenue South between "little 28th Ave South" and S. 188th Street. All east/west movements will be maintained through existing intersections.

Access to driveways along 28th Avenue South will be provided by temporary access cuts through the median.

Early construction activity will include utility relocations, and then move into construction of columns and elevated trackway.

For more information on this activity, or if you would like to receive the most current information about the South 200th Link Extension, please contact Jennifer Lemus at 206-398-5314 or jennifer.lemus@soundtransit.org.
