Choose a Plan That Fits Your Budget

How much you'll pay for a health plan depends on the plan you choose. All plans sold on *Washington Healthplanfinder* will have four levels of cost-sharing. These are called 'metal levels' and include bronze, silver, gold and platinum.

Metal Level	Plan Pays
Bronze	60%
Silver	70%
Gold	80%
Platinum	90%

The difference between the metal levels is based on how much of the medical costs your health plan picks up and how much is your share through copays and coinsurance.

Depending on how much you earn, you may qualify for a free or low-cost health plan or financial help to lower the cost of your premiums and copays.

Below are a few examples of cost estimates based on household income:

- A family of 4 making less than \$32,500 can qualify for free health coverage.
- A family of 4 making up to \$40,000 can qualify for an estimated \$985 in tax credits per month.
- A family of 4 making up to \$90,000 can qualify for an estimated \$436 in tax credits per month.

Note: These estimates show expected spending scenarios for families and individuals eligible to purchase coverage in the Exchange under the Affordable Care Act based on calculator software developed by the Center for Labor Research and Education and Institute for Research on Labor Employment Library, at the University of California, Berkeley. Actual premiums in the Exchange are not yet known. The premiums reflect national estimates from the Congressional Budget Office for silver plans, adjusted for premium inflation and age rating.

Why do I need health insurance?

Having quality insurance means that you and your family can get the care necessary to stay healthy. And when an accident or illness strikes, a quality health plan can offer protection from huge medical bills — giving you and your family peace of mind.

Starting in 2014, if individuals do not have health insurance, they will have to pay a fine of \$95, which increases to \$325 in 2015 and \$695 or 2.5 percent of household income in 2016. For families, the penalty will be \$2,085 or up to 2.5 percent of household income.
