

South 200th Link Extension

Construction Alert

Nov. 26, 2013

Soil sampling scheduled along southbound Interstate 5 off-ramp to South 200th Street/Military Road in SeaTac

Beginning as early as Monday, Dec. 2, Sound Transit's subcontractor Hart Crowser, Inc. will start drilling along the southbound off-ramp of South 200th Street/Military Road in SeaTac. Drilling to evaluate subsurface soil conditions will take place primarily in the shoulder on the west side of the off-ramp and on the west side of Military Road. (See map on reverse.)

This work is expected to take about 14 days. It will help Sound Transit better understand the soil conditions where improvements will be made to the off-ramp for access to the future Angle Lake light rail station at South 200th Street. Link light rail service to that station is expected to open in 2016.

What you can expect from this construction activity

- Hours of work: 7 a.m. to 6 p.m.
- Drilling will take about two to three days at each location.
- Holes will be drilled approximately 20 feet deep.
- Equipment will sound similar to a truck engine running with occasional hammering.
- In some locations, it may be necessary to detour pedestrians and bicycles. Signs will be posted to guide people safely through the area.

For more information on this activity, or to receive the most current information about the South 200th Link Extension, please contact Jennifer Lemus at 206-398-5314 or jennifer.lemus@soundtransit.org.
